Office Action Summary

## DETAILED ACTION

### *Election/Restrictions*

1. This application contains claim 3 drawn to an invention nonelected with traverse in Paper No. 5. A complete reply to the final rejection must include cancelation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

### *Claim Rejections - 35 USC § 102/103*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made

4. Claims 1 and 4 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over EP 0,488,335 as per reasons of record.
5. Claims 1 and 4 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over U.S. 6,291,633 (Nakamura) as per reasons of record.

Art Unit: 1711

*Claim Rejections - 35 USC § 103*

6. Claims 1 and 4 are rejected under 35 U.S.C. 103(a) as being unpatentable over EP 0,580,387 as per reasons of record.

*Response to Amendment*

7. Applicant's arguments filed November 26, 2002 have been fully considered but they are not persuasive.

With respect to EP '335, applicants argue that while the present invention does not contain a graft modified alpha-olefin polymer it does contain other optional components inclusive of impact modifiers. The graft modified alpha-olefin polymer, however, is an impact modifier and, as such, it is not precluded from the "consisting essentially of" language of the present claims.

With respect to Nakamura, applicants appear to argue that the weight ratios of the present aromatic polyamide and aliphatic polyamide are different from the corresponding ratios set forth by patentee. The present ratios, however, embrace embodiments wherein the aliphatic polyamide is the predominant component. Accordingly, applicants' argument is not well taken.

With respect to EP '387, applicants argue that the composition of the present invention does not require aromatic diamine. The present claimed language with respect to the diamine component, i.e., "a diamine component of aliphatic diamine", however, does not preclude the additional presence of an aromatic diamine.

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

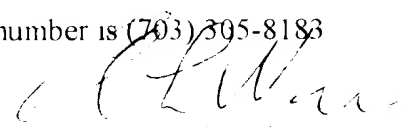

Art Unit: 1711

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
